

Safer Internet Day 2019 Social Media Activities

This Safer Internet Day we are encouraging everyone to think about the ways in which they ask, give and receive consent online using the hashtag **#OurInternetOurChoice**.

With your help we want to spread the word about Safer Internet Day on social media!

Showcase the great work you and your students do on the day and spread positive messages about the way we use the online world.

You can also use the hashtag **#SaferInternetDay2019** to talk about the day more generally and be part of the global celebration.

How to get involved

1 Use the **tablet template** to explore consent online and tailor the template to suit the age group that you work with. **There are a few ways in which you can do this.** Fill in the tablet with...

- your message or pledge to create a better internet.
- a message conversation that demonstrates how someone could ask, give or receive permission online.
- an example of where you may need to give consent to an online service or platform (e.g. saying yes to an in-game permission or when receiving a friend request.)

2 Take a photo of the templates (with students and educators too!) and share on your organisation or school's Twitter, Facebook, Instagram and any other social media accounts with the hashtag **#OurInternetOurChoice**. We would also love to see how you have used the templates to create a display in your setting!

3 **Get your friends, family, and colleagues involved!**

Any photos shared on Twitter using the **#SaferInternetDay2019** or **#OurInternetOurChoice** hashtags and tagging **@UK_SIC** may be retweeted by the UK Safer Internet Centre! Only photos sent from official school or organisational Twitter accounts will be retweeted.

Many platforms have a minimum user age of 13. Sharing your Safer Internet Day actions responsibly from your school or organisations account is a great way to get your student's work seen by a wider audience.

Important

Please ensure that you have the appropriate media consent from parents for any children appearing in the photos.

If you are using these templates with young people, please use **an official school or organisational Twitter account** to share this work, rather than asking the young people to share from their personal accounts.
